

VANSANT & GUSLER, INC.

Federal Capability Statement

CORE COMPETENCIES

Vansant & Gusler, Inc. provides Mechanical, Electrical, and Plumbing (MEP) engineering design and independent Commissioning (Cx) for federal facilities worldwide, supporting new construction, renovations, infrastructure upgrades, and mission-critical systems.

Engineering & Design

- Advanced metering and energy modeling
- HVAC and mechanical systems
- Electrical power distribution and lighting
- Central utility plant design and upgrades
- Energy efficiency and sustainability solutions
- Building automation and DDC systems
- Emergency power and resiliency systems
- Facility assessments and feasibility studies

Commissioning (Cx)

- Independent Commissioning Authority (CxA) services
- Design and construction phase commissioning
- Functional performance testing
- Systems integration validation
- Owner training and documentation review

DIFFERENTIATORS

- Multi-agency DoD experience
- MACC, MATOC, and IDIQ performance
- Prime or specialty subconsultant capability
- Integrated design and independent commissioning
- Deep UFC expertise
- Responsive small business with senior leadership involvement
- Complex and mission-critical facility experience

PAST PERFORMANCE (REPRESENTATIVE)

- **NAVFAC** — IDIQ projects since FY2016 (HVAC, electrical, renovations, energy upgrades)
- **USACE** — Fort Polk, Fort Lee, other installations (MEP design, infrastructure upgrades)
- **U.S. Air Force** — Langley AFB (facility improvements and system upgrades)
- **Additional Clients:** U.S. Coast Guard • NASA • NOAA • EPA

COMPANY DATA

Norfolk, VA | 757-461-6757 | vansantgusler.com

Small & Micro Business (SWaM — VA)

UEI: CNHRS1NDL2Z5 | CAGE: 1XCK8 | Est. 1960

Capabilities: MEP Engineering • Commissioning (Cx) • Facility Assessments • Construction Support

GPC Accepted: YES

FEDERAL PROJECT EXPERIENCE

- NAVFAC (MIDLANT, Southeast, Wallops, Guantanamo Bay)
- USACE (Norfolk, Huntsville)
- U.S. Air Force • U.S. Coast Guard
- NASA • NOAA • EPA
